

MIKHAIL AZHYSHCHEV

AI-ENABLED AUTOMATION ENGINEER

SUMMARY

AI-Enabled Automation Engineer with 10+ years across B2B operations, procurement, and supply chain, building code-first AI workflows and automation systems since 2022. Focused on removing manual bottlenecks and making businesses more efficient, from back-office process automation to digital growth channels built from zero for a Munich market launch.

WORK EXPERIENCE

AI-ENABLED AUTOMATION ENGINEER

AZHYSHCHEV | Munich, Germany | Aug 2023 – Present

- Lead end-to-end B2B commercial and operational delivery in Germany, covering client acquisition, negotiations, contract execution, procurement, and supplier coordination, contributing to 25+ client projects delivered.
- Built a partner network of 15+ suppliers and service providers, applying hands-on operations and supply chain expertise directly to automation project delivery.
- Design and implement code-first automation solutions, including Hybrid RAG pipelines, sub-agents, custom MCP tooling, intelligent sales agents, and internal tools for document processing, product search, and workflow automation, replacing manual processes with scalable, AI-driven systems.
- Improve operational efficiency in client projects through data optimisation, API integrations, and cost-conscious solution design, reducing API overhead by up to 90% and improving processing speed across delivered projects.
- Own internal financial reporting automation for VAT/Umsatzsteuer and maintain full P&L responsibility and German business compliance.

DIGITAL MARKETING & OPERATIONS MANAGER

VIBA GMBH | Munich, Germany | Apr 2022 – Aug 2023

- Architected an automated AI content and lead-generation pipeline (Google Apps Script + OpenAI API), automating keyword extraction, briefs, and multichannel distribution with 80% less manual effort.
- Built digital presence from scratch for the Munich store launch across Google Business, Meta Ads, and local SEO to drive consistent inbound sales and client acquisition.
- Managed end-to-end procurement and supplier workflows with tier-1 German brands (Siemens, Bosch, Liebherr, Miele), coordinating B2B order routing, logistics, invoice tracking, and ERP data sync.
- Coordinated cross-functional operations and external development contractors, driving process standardization and cost efficiency across retail and digital channels.

CORE SKILLS

Automation & AI

- Code-first Automation
- Agentic AI & Sub-Agents
- Claude Agent SDK & Claude Code
- Google ADK (Agent Dev Kit)
- Hybrid RAG & Multi-LLM
- Custom MCP & Structured Tool Use
- LangGraph, LangChain
- Deterministic Guardrails

Development

- Python, TypeScript, SQL
- Pydantic, REST APIs, Fastify/FastAPI
- GitHub Actions CI/CD
- System & SaaS Integrations

Platforms & Tools

- VS Code, Antigravity IDE
- Supabase, pgvector, Redis
- Google Cloud Run, Docker
- Postman (API Discovery), n8n
- Railway, Vercel, CI/CD

Business & Operations

- B2B & Digital Operations
- SEO, Meta Ads, Google Analytics
- Stakeholder Management
- Process Optimization
- P&L Ownership

MIKHAIL AZHYSHCHEV

AI-ENABLED AUTOMATION ENGINEER

HEAD OF COMMERCIAL DEPARTMENT

BLACK SEA LINK LTD. | Odesa, Ukraine | Apr 2019 – Feb 2022

- Built and led a 5-person commercial department from scratch, managing full departmental operations, KPI setting, team hiring, and revenue growth across international freight routes.
- Engineered internal tracking and forecasting workflows, improving operational transparency, contract turnaround speed, and cross-departmental alignment between sales, customs, and operations.
- Led enterprise contract negotiations and vendor management with international shipping lines, carriers, and customs authorities, reducing operational overhead and transit costs.

INTERNATIONAL LOGISTICS & SUPPLY CHAIN MANAGER

FMG SHIPPING AND FORWARDING | Sep 2017 – Feb 2019

- Led warehouse and export logistics for timber and grain, coordinating foreign trade contracts, multimodal transport, customs solutions, and a team of 3 employees, contributing to a profitable warehouse operation and consistent on-time delivery performance.

GLOBAL LOGISTICS MANAGER

FMG SHIPPING AND FORWARDING | Apr 2015 – Sep 2017

- Managed import and export cargo deliveries from China and Europe to Ukraine, negotiating with shipping lines, freight forwarders, trucking companies, and railway operators while optimising transport routes and supporting consolidation warehouse operations.

INTERNATIONAL LOGISTICS MANAGER

ITL GROUP | Jul 2012 – Mar 2015

- Managed a fleet of 5 container trucks, prepared registration documents for shipping lines and Ukrainian seaports, and coordinated export cargo operations for international shipments.

PROJECTS

AI automation, RAG systems, and business automation case studies —

full project portfolio available on LinkedIn:

linkedin.com/in/azhyshchev/details/projects

EDUCATION

Master's Degree in Engineering

National University "Odessa Polytechnic"
2006 – 2012

Applied ML & Deep Learning (6 ECTS)

Hochschule München (HM)
2026

CERTIFICATIONS

Google Cloud / Skill Boost [\[Credly ↗\]](#)

Certified Agent Development (ADK & MCP):

- Build Multi-Agent Systems with ADK & MCP
- Engineer AI Agents with ADK (Intermediate)
- Agent Memory, State & Tool Capabilities
- Gemini for Application Developers

German B1 Certificate

+ Integrationskurs, Germany

Machine Learning Specialization

Stanford Online / DeepLearning.AI (Andrew Ng)

IBM AI Developer Certifications

All 100% complete:

- Build Multimodal Generative AI Apps
- Build RAG Applications: Get Started
- Vector Databases for RAG & GenAI Apps

LANGUAGES

- English (Fluent / Professional)
- German (B1, certified)
- Russian, Ukrainian (Native)
